In my opinion, all the cosmetic DLCs aren't really worth it. The base game already have plenty of nice skins to unlock, and the DLC skins are pretty much gimmicky and doesn't really look that cool. I would recommend to buy [The Handsome Collection](#) during a sale to "complete your collection" instead.

[The price is very low, and it is pretty much optional DLCs for fans to further support the publisher. I will give it a downvote to protest against this kind of cosmetic DLC hell..
